

ASHUTOSH PRATAP SINGH

6387971423 | ashutosh247singh@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in data analysis, web development, and machine learning. Proficient in Python, JavaScript, and SQL with demonstrated ability to build and deploy end-to-end web applications. Certified in Oracle Cloud Infrastructure Generative AI. Seeking a role in data analytics or software development where I can apply strong problem-solving and technical skills.

WORK EXPERIENCE

Data Analysis Intern — Nexus Info

Jan 2024 – Mar 2024

- Analyzed historical datasets to identify trends and patterns, improving forecasting accuracy by 15%.
- Cleaned and transformed large datasets using Python (Pandas, NumPy), enhancing reporting accuracy by 20%.
- Conducted root cause analysis on business problems and delivered data-driven recommendations to support strategic decisions in market demand and operational efficiency.
- Built automated reporting pipelines that reduced manual data preparation time.

PROJECTS

PumpLab — Gym Management & E-Commerce Platform [Live Demo](#)

Tech: HTML, CSS, JavaScript, MET Formula Engine

- Built a full-stack gym management and supplement e-commerce platform with user authentication, real-time data tracking, and payment integration.
- Integrated Razorpay Payment Gateway to handle supplement purchases and subscription plans (Monthly/Quarterly/Yearly).
- Developed 4 fitness tracking modules: Lift Tracker (Squat/Bench/Deadlift with PR history), Cardio Tracker (calories via MET formula), Workout Logger, and BMI/Profile Calculator — serving 100+ tracked sessions.

CSV Analytics Dashboard [Live Demo](#)

Tech: HTML, CSS, JavaScript, Chart.js, PapaParse

- Built a client-side analytics dashboard supporting Bar, Line, and Scatter chart visualizations with real-time aggregation (Sum, Average, Count).
- Engineered a robust CSV parser using PapaParse with data cleaning, currency symbol stripping, and null-value handling across datasets of 10,000+ rows.
- Achieved zero-backend architecture using vanilla JS, eliminating server costs and reducing load time to under 1 second.

Food Delivery Website [Live Demo](#)

Tech: HTML5, CSS3, JavaScript (Vanilla)

- Built a fully responsive food delivery web app from scratch using vanilla HTML5, CSS3, and JavaScript — no frameworks or build tools.
- Engineered a dynamic shopping cart with real-time quantity controls, auto-removal animations, and live grand-total calculation using JavaScript array methods.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, TypeScript, HTML5, CSS3, SQL

Data & ML Libraries: Pandas, NumPy, Scikit-Learn, Matplotlib, Chart.js

AI / ML: Machine Learning, Generative AI, Artificial Intelligence, Prompt Engineering

Tools & Platforms: Power BI, Jupyter Notebook, Git, GitHub, VS Code, Chart.js

Databases: MySQL

EDUCATION

Bachelor of Technology, Computer Science & Engineering

Aug 2021 – May 2025

Amity University, Lucknow, Uttar Pradesh · CGPA: 7.28/10

Relevant Courses: Data Science, Machine Learning, Artificial Intelligence, Generative AI, Computer Organization & Architecture

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** Oracle (2025)

ACHIEVEMENTS & LEADERSHIP

- Google Developer Student Clubs (GDSC) Member — coordinated and volunteered at multiple technical and community events.
- Road Safety Awareness Drive — collaborated with a team of volunteers and NGO officials to plan and execute a public awareness campaign.
