WORK EXPERIENCE

NEXUS INFO-

Data Analysis Intern

- Analyzed historical datasets to identify trends and patterns, improving forecasting accuracy.
- Provided actionable insights to support strategic decision-making in market demand and operational efficiency.
- Conducted root cause analysis on business problems and recommended data-driven solutions.
- Cleaned and transformed datasets, enhancing reporting accuracy by 20%.

PROJECTS

Food Delivery Website (GitHub: <https://github.com/AshutoshPratapSingh17/Delivery-app>)

- Built a fully responsive food delivery website from scratch using vanilla HTML5, CSS3, and JavaScript with zero frameworks or build tools.
- Engineered a dynamic shopping cart with real-time quantity controls, auto-removal animations, and live grand total calculation using JavaScript array methods.

Finance Dashboard (GitHub: <https://github.com/AshutoshPratapSingh17/Finance-Dashboard>)

- A Power BI Dashboard for predictive financial analytics. This project demonstrates the use of business intelligence techniques to visualize, analyze, and predict financial trends based on historical data.
- The tool is designed for financial analysts, business strategists, and decision-makers to make informed predictions and drive data-backed decisions.

CSV Analysis Website (GitHub: <https://github.com/AshutoshPratapSingh17/CSV-Analysis-file>)

- Built a full-stack-style analytics dashboard in vanilla HTML, CSS, and JavaScript
- Developed a dynamic chart builder supporting Bar, Line, and Scatter visualizations with real-time aggregation (Sum, Average, Count) using Chart.js.
- Built a client-side CSV parser using PapaParse with data cleaning, currency symbol stripping, and null handling across large datasets.

SKILLS

Language: C++, Python, HTML/CSS Java Script, Type Script

Frameworks: Pandas, NumPy, Scikit-Learn, Matplotlib

AI: Gen AI • Artificial Intelligence • Machine Learning

Database Management: SQL

Tools & Platforms: Power BI, Jupyter Notebook, Visual Studio Code, Git, GitHub

EDUCATION

Amity University, Lucknow, Uttar Pradesh

Aug 2021- May 2025

Bachelor of Technology in Computer Science and Engineering; CGPA: 7.28/10.00

Relevant Courses: Data Science, Computer Organization & Architecture, Generative-AI, Artificial Intelligence, and Machine Learning.

ACHIEVEMENTS

-
- **Google Developer Student Clubs Member**– Coordinated and Volunteered events
 - **Road Safety Event Program**- Collaborated with a team of volunteers and NGO officials to ensure smooth execution of the awareness drive.

CERTIFICATION

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (Oracle, Oct 2025)

Credential ID: 102967509OCI25GAIOCP
